

SURE-FLO®

PLS2 Strainer

The ideal strainer for pumping from:
Ponds, Lakes, and Streams

- Large open area (88 square inches) provides very low through screen velocity.
- Small hole size (.075 inch openings)
- High density polyethylene slide holds strainer off the bottom, allowing flow through entire screen.
- A 2" female NPT for attachment to a suction line or foot valve.
- Epoxy coated aluminum screen
- Cast aluminum ends
- Stainless steel bolts

Part No.	Screen Dia	Screen Length	Open Area	Wt.	Through Screen Velocity
PLS2	6"	8.75"	88 sq. inches	3.5 #	.11 ft/sec @ 30 GPM .18 ft/sec @ 50 GPM
